BEACHCOMBER HOT TUBS

PRE-DELIVERY GUIDE

Preparing the way for your New Beachcomber Hot Tub

Vacation, 365 days a year.

A Beachcomber Hot Tub® is designed to be enjoyed all year-round, as your own personal oasis right outside your back door!

Inside this guide:

- 1 Learn how simple it is to prepare for installation
- 2 Follow our quick checklist for choosing the perfect location
- 3 Discover the best delivery route
- 4 Get to know your Beachcomber Family and the resources we provide you

Easy, quick. Completely stress-free.

That's how our owners describe their hot tub delivery!

Enjoy all-year!

Relaxation, any time you want it. Spending time in your Beachcomber Hot Tub® is like being at a world-class resort, right in the comfort of your own backyard!

Make it as accessible as possible.

Keep it close to a back door. Even in the deep-freeze of winter, you can quickly step in, and enjoy the incredible hydrotherapy benefits.

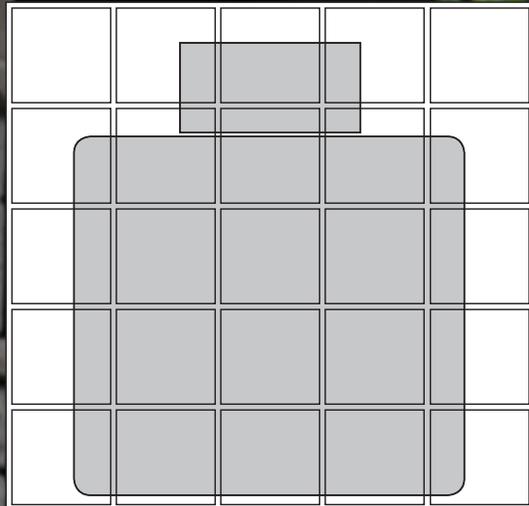

If you are planning on having your deck surround your hot tub, always make sure to have the hot tub on-site before any cuts are made. We build each model by hand, from scratch. Slight variations in dimensions may occur and it's always recommended to measure the actual purchased hot tub to ensure in-deck installations will fit absolutely perfectly.

Laying the foundation

Your hot tub must be placed on a flat, level spot that will support the weight over the long-term. Patio blocks are preferred as they are easy to lay down with sand, a perimeter border, a long, straight board and a level to ensure your spot remains flat.

Shown in this example are 24"/61cm blocks.

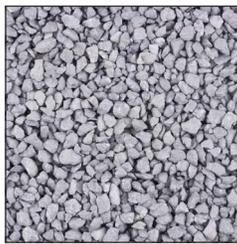

We recommend one of these simple ways to prepare the ground for your hot tub:

PATIO BLOCKS

CONCRETE PAD

CRUSHED GRAVEL

WOOD DECKING

INTERLOCKING BRICKS

When you install the foundation, be sure that the water drains away from it. Placing the hot tub in a depression without provision for proper drainage could cause rain or water overflow to flood the equipment and create a wet condition in which the hot tub could sit.

If your hot tub is a HYBRID4® edition, ensure that you leave enough room for the SafeAxiss™ Steps. Make you write down measurements to accommodate any other accessories you may want in the future.

Installing a hot tub on a deck is a popular location for many home owners. Before placing your hot tub on or in your deck, consult your local store for exact measurements and building code information for proper weight support.

Preparing the site

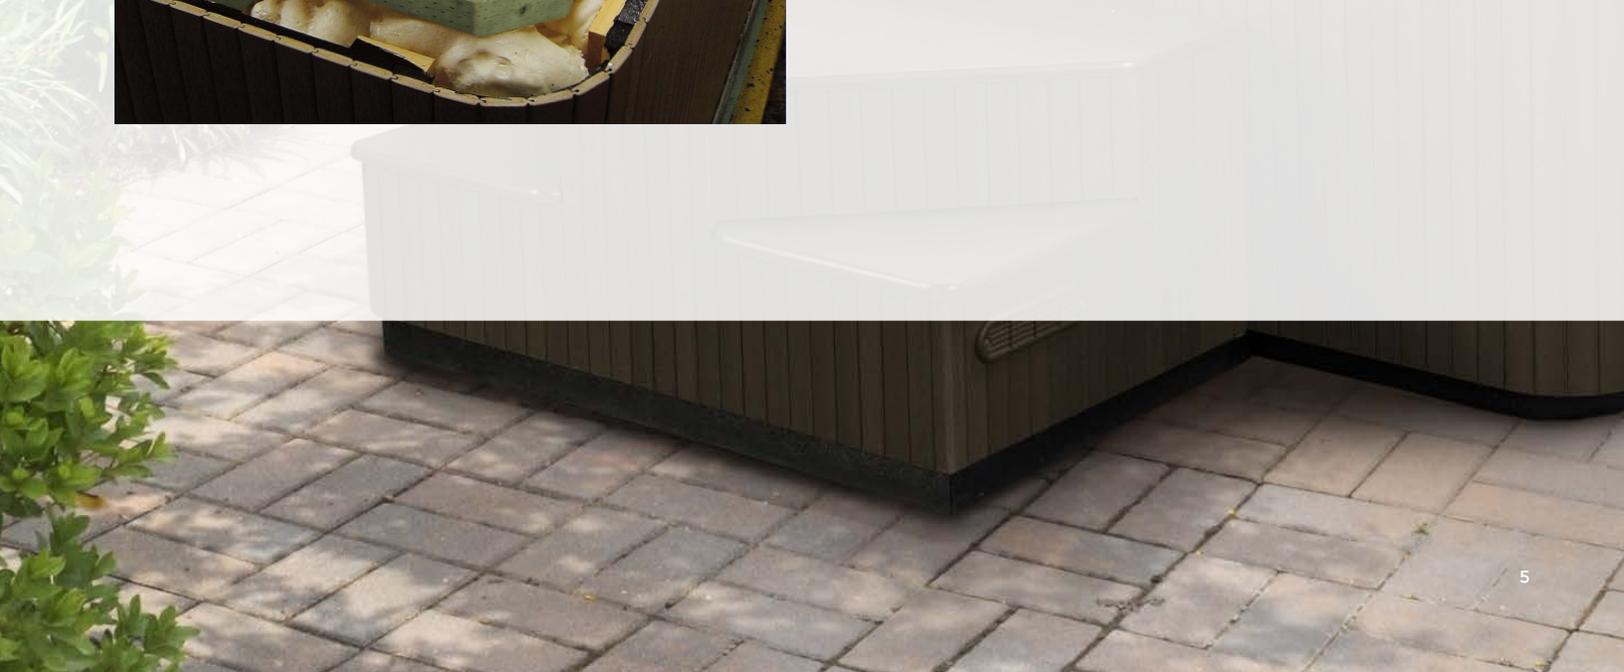

A Beachcomber Hot Tub® is fully portable. If you move, simply take it with you. It's a fully integrated unit; all you need is a flat, level location, an electrical line, and water from your garden hose.

The difference of Beachcomber's Perma-Seal™

Our specialized, one-piece thermoformed foundation caps the bottom of your hot tub to make it an enclosed, completely integrated unit. Constructed using ABS plastic composite, bug invasions, moisture, and rodents are no match!

For installation convenience, every model is fitted with Dual Side Electrical Conduit Access (with the exception of the 320).

How to prepare for set-up

SITE SURVEY TEMPLATE KIT

Available at your local Beachcomber store, bring home to measure the space for your new hot tub. Whether it's on a deck or on a pad, this is a simple and effective way to plan the perfect location for your hot tub.

Ask your store for an in-home site inspection. Your local building code will give you the requirements for proper support of your hot tub on a wood deck as the average size filled hot tub can weigh more than the car in your driveway. It must be supported properly to ensure a safe and reliable installation.

Our recommendation has always been to install your hot tub outside on a deck or on a pad, but if you do decide to install it inside your home, ensure that your contractor provides proper ventilation according to your local building code.

Remember to keep an outdoor faucet accessible

Specially treated water is not required to fill your hot tub initially, just make sure you have easy access to a garden hose. Simply place it in the tub, and bring the water up to the recommended levels as found in your Owner's Guide, and follow the instructions of your chosen water care program.

Planning your backyard for the best experience

PRIVACY

Get the relaxation and calm that you need, by planning your hot tub location for the best privacy. Where are your neighbours' windows, patios, and doors? Are there any trees or fences that they might remove in the future? Find a place that's private and relaxing, with a view that's not directly into your neighbours' house or yard.

KEEP IT CLOSE TO YOUR BACK DOOR

Ensure that you place it just steps away, so that you can enjoy it in any weather. Based on feedback from owners, within 10 feet is the ideal distance.

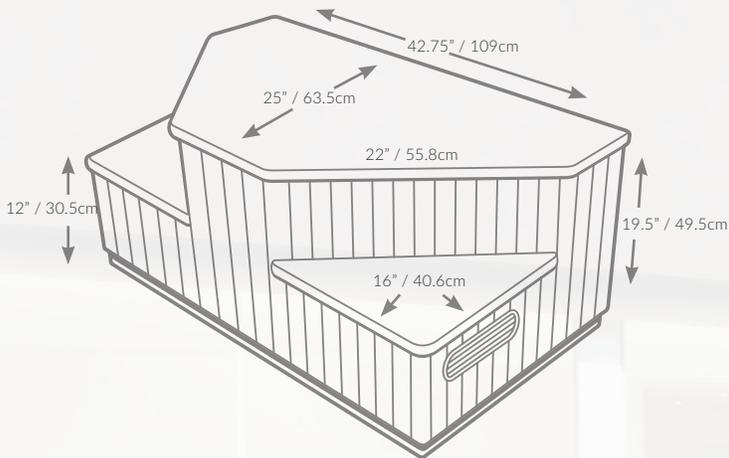

Tree needles, leaves, branches, or sap, can quickly dirty the hot tub. Try to keep your hot tub protected or enough distance away from tree cover to save time and energy in cleaning.

Beachcomber Safety Steps

Depending on your purchased model, SafeAxiss™ Steps may be included.

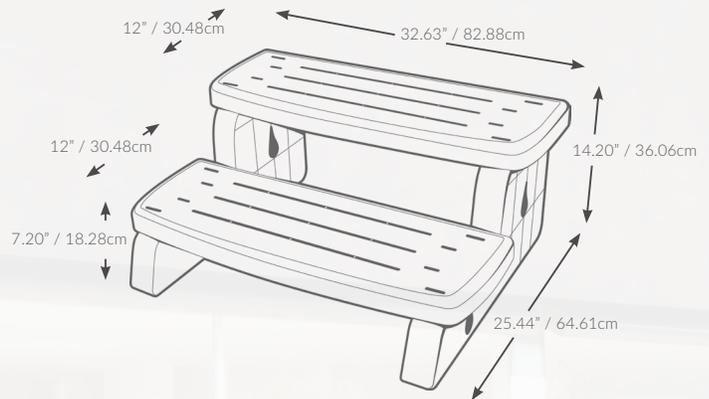

Below are the dimensions of the steps to help you pick the best hot tub location in your backyard.

HYBRID4® Step Top Views

The SafeAxiss™ steps, included with the HYBRID4® Edition gives you both a safe easy way to enter and exit, and a cover for your Energy Saver equipment.

LEEP™ Step Top Views

Available as an option, the Portable Step gives you an easy way to enter and exit your hot tub.

Hot tub area dimensions

All Beachcomber Hot Tubs fall under one of these Six different outside area dimensions shown below. See page 9 for more info.

89 x 89 inches
226 x 226 cm
38" / 97 cm high

Model 750, 740, 738,
669, 658, 590, 380

80 x 88 inches
203 x 224 cm
38" / 97 cm high

Model 730, 720, 667,
656, 655, 570, 550,
360, 350

70 x 86 inches
178 x 218 cm
38" / 97 cm high

Model 664, 663,
654, 540, 538, 340

57 x 75 inches
145 x 190 cm
30" / 76 cm high

Model 520

78 inches
198 cm
34" / 86 cm
high

Model 320

46 x 86 inches
145 x 190 cm
30" / 76 cm high

Model 007

Planning your delivery route saves time

Take the time to sketch out a quick map for the delivery personnel when they deliver your hot tub. A map like this is invaluable, not only so that they can plan the route, but ensure that they follow your instructions when they arrive. For some deliveries, the new owner may not be home so having a map helps our delivery team know where to go and what to do.

Measure the width of stairs and steps to get up and over

Are there railings in the way, and how wide apart are they

Measure to see if shrubs or trees are an obstacle

Ensure sidewalks are free of objects and clutter

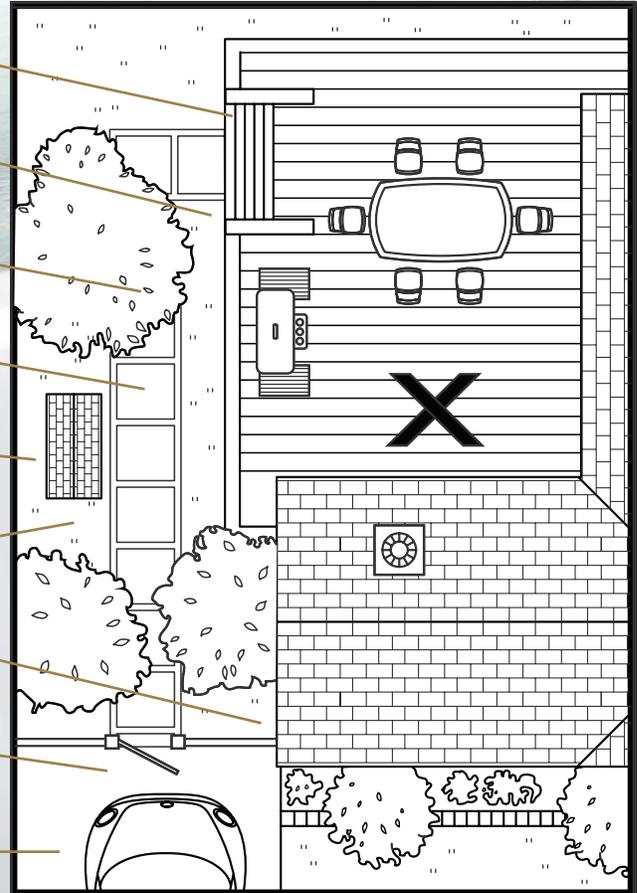

Check the doghouse or shed to see available clearance

Check for uneven ground or slippery slopes

Measure for overhanging gutters or downspouts

Gate measurement for clearance

Recreational vehicles and cars in the driveway

USE THIS SIMPLE CHECKLIST TO PLAN YOUR ROUTE!

- automobiles / recreational vehicles
- gutter / fascia / soffit overhang
- electrical / gas meter equipment
- doghouse / playhouse
- stairs / steps / railings
- uneven ground
- slippery slope or path
- trees / foliage / shrubs
- patio furniture / deck chairs
- fences or narrow gates
- gravel, rocks or wood piles
- adequate access to wood decks
- door openings (if applicable)
- sheds or built-in structures

PROVIDE SPECIAL MEASUREMENTS: Gate width: _____ Stair width: _____

Important statistical information

590 / 669	7 (7 active seats, and a cooling bench)	89 x 89 x 38" / 226 x 226 x 97cm	4312 lbs / 1956 kgs	430 US gal / 1628 ltr
570 / 667	6 (6 active seats, and a cooling bench)	80 x 88 x 38" / 203 x 224 x 97cm	3670 lbs / 1665 kgs	362 US gal / 1370 ltr
550	5 (4 active seats + 1 lounger, and a cooling bench)	80 x 88 x 38" / 203 x 224 x 97cm	3820 lbs / 1733 kgs	379 US gal / 1435 ltr
540 / 664	5 (5 active seats, and a cooling bench)	70 x 86 x 38" / 178 x 218 x 97cm	3103 lbs / 1408 kgs	300 US gal / 1136 ltr
530 / 663	4 (4 active seats, and a cooling bench)	70 x 86 x 38" / 178 x 218 x 97cm	3394 lbs / 1540 kgs	335 US gal / 1268 ltr
520	2 (2 loungers)	57 x 75 x 30" / 145 x 191 x 76cm	1885 lbs / 855 kgs	175 US gal / 662 ltr
380 / 658	7 (6 active seats + 1 cooling seat)	89 x 89 x 38" / 226 x 226 x 97cm	4212 lbs / 1911 kgs	418 US gal / 1582 ltr
360 / 656	6 (6 active seats, and a cooling bench)	80 x 88 x 38" / 203 x 224 x 97cm	3528 lbs / 1601 kgs	345 US gal / 1306 ltr
350 / 655	5 (4 active seats + 1 lounger, and a cooling bench)	80 x 88 x 38" / 203 x 224 x 97cm	3778 lbs / 1714 kgs	375 US gal / 1420 ltr
340 / 654	5 (5 active seats, and a cooling bench)	70 x 86 x 34" / 178 x 218 x 86cm	3143 lbs / 1426 kgs	300 US gal / 1136 ltr
320	6 (6 active seats, and a cooling bench)	Diameter 78 x 34" / 198 x 86cm	2444 lbs / 1109 kg	242 US gal / 916 ltr
007	2 (2 active seats, and 2 cooling benches)	46 x 86 x 30" / 117 x 218 x 76cm	1679 lbs / 762 kgs	155 US gal / 587 ltr

Your store will confirm these statistics upon installation as they may change from time to time without notice as new innovations and changes take effect. Please check with your Beachcomber store for specific, statistical information on the hot tub model you choose before any installation work is performed. Don't forget that people add weight to these statistics. For example, four average adults at 150 pounds each, adds 600 extra pounds to your hot tub.

We're here to serve you!

Your local Beachcomber store is here to serve you. We offer water care products and accessories for your hot tub so that you have all you need to enjoy relaxing in your Beachcomber for years to come. Ask us about products that will enhance your ownership experience.

Discover the best hot tub water care solutions & accessories

Beachcomber offers many different products to enhance your hot tub experience. Learn more about our Water Care products online or at a participating store. Clean, healthy water. Simplified.

CARE FREE

We have designed the leading-edge CARE FREE line-up of water care solutions that minimize the use of traditional sanitizers, oxidizers, and conditioners, and instead deliver healthier, clearer water, in the fastest possible time.

CARE FREE is designed to be used with our CARE FREE BOOST™ sanitizer. Together, they work to condition and sanitize your hot tub water. Add in SOFT, a universal water enhancer that creates a more soothing and comforting quality in your hot tub water while moisturizing skin, and you'll have the complete CARE FREE Pack!

Install a Beachcomber HEATSHIELD™ Cover Lifter for Easy Enjoyment!

LIFT 'N STORE™ COVER LIFTER

LIFT 'N STORE™ cover lifter is a simple and convenient way to lift and store your HEATSHIELD™ cover quickly and get it out of the way. This clever cantilever design is affixed to the bottom of the hot tub skirt allowing for easy maneuverability and trouble-free use.

SLIDE 'N STORE EXTREME™ COVER LIFTER

SLIDE 'N STORE Extreme™ cover lifter is an amazing solution manufactured to provide quick removal of your HEATSHIELD™ cover with minimum effort while in use. Without any complicated steps or drilling required, the SLIDE 'N STORE Extreme™ simply slides under the perma-seal base. The improved built-in hydraulic pistons makes for easy on-and-off cover lifting.

AIRLIFT™ COVER LIFTER

AIRLIFT™ is a premium, hydraulic solution for your hot tub cover. Engineered with aircraft grade corrosion proof metals, AIRLIFT™ incorporates hydraulic assistance for easy lifting and closing, and provides flexible mounting options for all hot tubs and surroundings.

We've got you covered

Beachcomber's Protection Guarantees

Sleep well, our team has you covered. Our belief in a zero defects approach to our Canadian-made products ensures that each Beachcomber Hot Tub® that leaves our factory maintains the standards that continue to set us apart from our competitors.

We want you to feel absolute confidence in your investment. That's why every Beachcomber Hot Tub® comes with our Standard Protection Guarantee, at no extra charge. Because your time should be spent loving your Beachcomber, not worrying.

Our 5-Year Premium Protection Guarantee Upgrade provides an additional 3 years of coverage on major components of your hot tub, including the Smart Sense Heater, Enviroskirt cabinetry, and leaks caused by defects.

Thank you for spreading the word!

Beachcomber Hot Tubs® was founded on the same principles we are known for today. Our one-of-a-kind, custom tailored experience, creates Beachcomber champions with each new owner. Share your experience with your family and friends and enjoy the benefits of our Beachcomber Referral Program.

More details available at your local store.

We value your trust and confidence in us and our products, with sincere gratitude and many thanks.
